

FOR IMMEDIATE RELEASE

ePath Learning Receives 2011 Communications Solutions Product of the Year Award

eSource Recognized for Exceptional Innovation

September 4, 2012 - ePath Learning, Inc. announced today that TMC, a global media company, has named ePath Learning eSource as a recipient of a 2011 Communications Solutions Product of the Year Award.

ePath Learning eSource is a cloud-based service that empowers all employees to contribute, ask questions, share information, connect with colleagues, and search for experts throughout the organization. Employees can collaborate in teams and instantly see what others are working on, share information, post updates, and solve problems organically. eSource functionality is similar to today's popular social networks, except eSource is private, secure, and supports multiple languages. eSource is a social network designed specifically for business.

ePath Learning offers eSource fully integrated into its learning management system, ePath Learning ASAP, or as a stand-alone cloud service. eSource inherently builds a searchable database of all eSource user communications enabling the organization to retain knowledge and develop best practices. Individual knowledge becomes organizational knowledge in a safe, secure internal environment.

“Achieving this recognition for our newest service offering is very exciting to all of us here at ePath Learning. It is a validation of our vision of accessible Knowledge Management,” said Mohammad Samarah, VP of Engineering, ePath Learning. “In a short amount of time, eSource has enabled our customers to reap all the advantages of social collaboration within their business, without the risks associated with public networks. They’re seeing organizational silos breaking down and more information being shared across the business.”

“ePath Learning was chosen to receive a 2011 Product of the Year Award for creating outstanding advancements in communications,” said Rich Tehrani, CEO, TMC. “eSource has proven benefits for its customers and provides ROI for the companies that use it. Congratulations to the entire team at ePath Learning. I look forward to more innovative solutions from them in the coming year.”

The Communications Solutions Product of the Year Award recognizes the vision, leadership, and thoroughness that are characteristics of the prestigious award. The most innovative products and services brought to the market from March 2011 through March 2012 were chosen as winners of the Communications Solutions Product of the Year Award.

About TMC
