

FOR IMMEDIATE RELEASE

ePath Learning, Inc. Announces New Content Partner – The Institute for Professional Care Education

March 21, 2014 – ePath Learning, Inc., a leader in cloud-based learning services, proudly announces a new learning content partner, the Institute for Professional Care Education (IPCed). IPCed provides engaging online training content for the Senior Care industry that meets state and federal compliance requirements. IPCed offers a wide range of training topics from basic and advanced caregiving skills to Alzheimer’s and dementia care, safety, first aid, and medication management, to name but a few. ePath Learning will deliver IPCed’s content through its award-winning Learning Management System (LMS), ePath Learning ASAP.

“We are pleased to partner with ePath Learning and provide an additional platform to deliver our online caregiver training programs that improve quality of care” said Sharon Brothers, MSW, Chief Executive Officer at IPCed. “Our programs meet an important industry need by simplifying compliance training for home care, home health and assisted living facilities. ePath Learning’s technology platform is a great fit for IPCed courseware and we look forward to working together to help improve caregiver skills throughout senior care industry.”

“We recognize that there are profound changes happening in today’s healthcare landscape. As our nation’s population ages, more seniors are choosing to stay home rather than moving to nursing facilities. The senior care industry is exploding with growth, and training this influx of new senior care givers is of paramount importance” stated Donna Lord, Vice President, Sales and Marketing, ePath Learning, Inc. “We’re pleased to be able to offer IPCed content to meet the growing needs of our client base, particularly those looking to expedite their senior care training initiatives.”

###
